State Pollution Commission

806 Smith Tower
SEATTLE 4, WASHINGTON

Jan. 4, 1945

MEMORANDUM

TO: Office Memo

FROM: M. S. Campbell

SUBJECT: Pollution in the Port Washington Narrows by the Western Gas Company.

Following memorandum of October 6 on the above subject case, this matter is referred back to Mr. Benn of the State Dept. of Fisheries for such legal action as that department might wish to instigate.

On January 4 Mr. Benn advised me that about December 15 the matter had been referred to Mr. Gates, their inspector in that area, who had requested Mr. Cohen, Kitsap County Prosecuting Attorney, to take the necessary legal steps for prosecution. This matter is therefore in the County Prosecutor's hands. He is preparing his case and may call on the Pollution Commission for additional technical evidence.
